Summary

Frontend Developer with expertise in building responsive, user-friendly web applications using HTML, CSS, JavaScript, and React.js. Dedicated to delivering high-quality code and optimizing performance for exceptional user experiences.

Education

Cairo University

Postgraduate Diploma in Computer Science

Sep 2023 - Jul 2025

Minia University

Bachelor of Arts

Sep 2019 - Jul 2023

Experience

Quran Tab

Frontend Developer

Nov 2023 - Present

Remote

Tach Stack: React.js, TypeScript, SCSS

- **Enhanced User Experience:** Resolved Arabic prayer time and date issues, improving user satisfaction by addressing over 10 reported issues related to prayer times and Hijri date.
- **Technical Documentation:** Created comprehensive developer documentation to facilitate future development.

Mostaqi

Frontend Developer

Feb 2023 - Present

Remote

Tach Stack: React.js, JavaScript, CSS, Tailwind CSS, HTML

- **Aliyn Website (Aliyn Software House):** Built a portfolio website with JavaScript and Tailwind CSS, implementing responsive design for optimal user experience across devices.
- **Social Magic (Social Magic Agency):** Built and optimized a visually appealing website showcasing video editing services, integrating a CMS for easy updates, resulting in a **50% load time** reduction and a significant increase in client inquiries and project requests through improved user experience.
- **FAWZY (Video Editor Portfolio):** Built a responsive portfolio website with optimized video and image performance for fast loading and smooth playback.
- **Microshabab:** Localized the platform to Arabic by translating content and adapting UI; improved performance and user experience through code refactoring.
- **Smartgamesapp.io:** Identified and resolved critical issues, optimizing the codebase for better maintainability and efficiency.

Why Not Tech

Frontend Developer

Feb 2023 - May 2023

Remote

Tach Stack: React.js, Tailwind CSS

- **E-commerce Development:** Implemented responsive and user-friendly e-commerce features for a client, exceeding their expectations with a successful website launch.

Kalbonyan Elmarsos

Software Engineer Intern

Apr 2022 - Oct 2022

Egypt

Tach Stack: React.js, Tailwind CSS

- **Software Development Training:** Completed a rigorous internship with coursework and practical projects, enhancing programming and software development skills.
- **Advanced JavaScript and React:** Developed real-world applications like Note-Taking and Expenses Manager Apps, mastering asynchronous JavaScript and React frameworks.

Projects

T-Shop / React, Node.js, Express, MongoDB, Redux, Tailwind CSS

- E-commerce platform for electronic devices
- **User features:** Wishlist, cart management, payment integration (Stripe), reviews
- **Admin dashboard:** Order, product, brand, category, and coupon management
- Live demo: <https://t-shop-app.vercel.app/> | GitHub: <https://github.com/ahmedhanydev/t-shop>

Admin Dashboard / Next.js, CSS, MongoDB, Next-Auth, Vercel

- Developed an interactive dashboard with animated charts, user/product management (CRUD), search, pagination, and secure authentication.
- Structured layout with sidebar, navbar, and protected routes for secure access.
- Live demo: <https://admin-dashboard-nextjs1.vercel.app/> | GitHub: <https://github.com/ahmedhanydev/nextjs-admin-dashboard>

Nifty Nafty Clone / React, Framer-motion, CSS

- Crafted a visually engaging website with interactive elements and smooth transitions, enhancing the user experience through dynamic scrolling effects.
- Live demo: <https://nifty-website-two.vercel.app/> | GitHub: <https://github.com/ahmedhanydev/nifty-website>

Trending Movies / React, Context API, Bootstrap

- Built a site showcasing trending movies, TV shows, and celebrities using the TMDB API.
- Live demo: <https://trending-movies-app.vercel.app/> | GitHub: <https://github.com/ahmedhanydev/Trending-movies-app>

Omnifood / JavaScript, CSS, HTML

- Developed a modern, responsive website for a fictional food delivery service, ensuring optimal performance across all devices.
- Live demo: <https://omnifood-sable-xi.vercel.app/> | GitHub: <https://github.com/ahmedhanydev/omnifood>

Technical Skills

Languages & Libraries: HTML, CSS, JavaScript, React, Node.js

Frameworks: Next.js, Express.js

CMS & Tools: Bootstrap, Tailwind CSS

Version Control: Git, GitHub

Project Management: Notion, Trello

Languages

- **English:** Good
- **Arabic:** Native
